## Lets do sample

*If you are from new york with 8:00 monday now. please do follow to adjust local time firstly.*

*1. press "SET" button till hour figure flash. then press "UP" to hour into 8; press "SET" till minutes flash, then then press "DOWN" to minutes into 0; press "SET" button till days figure flash. then press "UP" to choose Monday*

**Sample 1:** Work time you want: 8:00 am-18:00 pm from monday to friday  
Density time: 5s work.200s pause

- press "MODE" till "EVENT 1 ON " flash, then press "SET" button till Hour Figure flash, at this time, press "UP" button to increase hour to 8 ; Now press "SET" button till minutes figure flash, then press "DOWN" to reduce minutes to 0, do same to make days from monday to friday.
- Press "MODE" again till "EVENT 1 OFF" flash, press "SET" button to hour flash, then press "DOWN " to adjust hour into 18, and press "SET" till minutes flash, press "DOWN" till 0 show.
- Press "MODE" again till "SCENT WORK" flash. then press "DOWN" till 5 show, then press "MODE" till "SCENT PAUSE" flash, then press "UP" till 200 show.

*Note: machine will work now, and will work from monday to friday*

**Sample 2:** Work time you want: 11:00-15:00, day is monday and friday;  
Density time: 20s work. 210s pause

- press "MODE" till "EVENT 1 ON " flash, then press "SET" button till Hour Figure flash, at this time, press "UP" button to increase hour to 11; Now press "SET" button till minutes figure flash, then press "DOWN" to reduce minutes to 0, do same to choose only monday and friday
- Press "MODE" again till "EVENT 1 OFF" flash, press "SET" button to hour flash, then press "DOWN " to adjust hour into 15, and press "SET" till minutes flash, press "DOWN" till 0 show.
- Press "MODE" again till "SCENT WORK" flash. then press "DOWN" till 20 show, then press "MODE" till "SCENT PAUSE" flash, then press "UP" till 210 show.

Note: machine will work after 3hour (at 11am), and only work at monday and friday

### Important:

- machine only work when your local time is within work time (Event 1 on - Event 1 off)*
- "Monday" "friday" show on display, it is not work from monday to friday. only work at monday and friday*
- If want reduce oil consumption per day, please adjust density time with 5s work, 200s pause or 300s pause.*
- "PAUSE OFF " appear on pannel when no touch display, that means your local time is not within work time NOW.*
- "PAUSE ON" apperar on pannel when no touch display, that means your machine is pause according to Density time you set.*
- SCENT ON" apperar on pannel when no touch display, that means your machine is working according to Density time you set.*

## Do maintaince

Because oil will leave in atomizer head inside when working, and block it, we need do clearance about 15-20 days per time, or you found small scent come out.

Step 1: Add much alcohol into bottle

Step 2: Let machine work about 15-20min

Step 3: pour alcohol away

## Problem & Solution

- No scent come out, no time on pannel  
Solution: please try to connect adapter again, if still not, pls change another
- No scent come out, have time on pannel. no noise  
Solution: your local time is not within work time (event 1 on - Event 1 off).
- No scent come out, have time on pannel. have noise  
Solution: A. please check if oil is enough  
B. please check if it tighten well between bottle and atomizer head  
C. please check joint connector tighten well  
D. Please put finger block scent outlet for 5s to feel if it leak air. if no leak air, that means your oil block atomizer head hole, need do maintaince as above
- Have noise, however scent out become small then before.  
Solution: A. please check if your oil is pure oil or buy kevnleo oil for try  
B. please do maintaince as above methods.
